THE EVENING NEWS.

CONTRADICTED .- A report being prevaalent that the Pioneer stages did not deliver passengers and express to Sacramento we herewith publish the following dispatch received by the company yesterday, from the Superintendent, Mr. McLane :

SACRAMENTO, Aug. 28, '64-3:45 P. M. Pioneer Stage Company: All mail and express by the 3 P. M. stage from Virginia will arrive in Sacramento one half hour before boats leave each day; the same with passengers. They can take their choice, either to connect with the boats at Free-port or Sacramento. C. E. McLANE.

CONDITION OF WELLS .- Upon inquiry last evening at Virginia, we were informed that some hopes were entertained that Sam Wells would recover. He can be aroused to consciousness occasionally, but relapses again into stupor. One would hardly suppose after looking at the heavy post which he shattered with his head, that that personal ornament could ever be restored to its original use as a knowledge-

HAY! HAY!-In the language of Dan de Quille, business is improving! Main street, in Gold Hill, has been jammed all day with teams, carriages, lumber and hay wagons. Hay! hay! All that was

BULLION .- Messrs. Wells, Fargo & Co., vesterday morning shipped eighteen bars of bullion, weighing 1,140 pounds, of the assayed value of \$31,654 18.

The Stock Market.

The following review of the Mining Stock Market of San Francisco for the week ending on the 27th inst. is from the Argus of Saturday:

The Share Market has shown a fair degree of activity this week, and prices for the most part have been well maintained. Leading Stocks at the close are very firm at en-hanced rates, and the fancies are in some request. There is no abatement in the re-ceipts of Bullion from Washoe, and nearly all claims upon the Comstock are looking

Gould & Curry has fluctuated between \$1,370 and \$1,500, and closes at \$1,480 ask-724 feet have been sold within this rauge. The work of development continues vigorously, and no unfavorable feature has presented itself lately. Some 100 tons of good ore is daily taken out from the shafts sunk from the lower level, and four outside mills are now employed. Savage fell from \$1,275, seller 30, to \$1,220.

buyer 10 days, and rose at the close to \$1,300 bid, buyer 30 days. This Company will resume the payment of dividends on the 5th proximo. \$50 per share is anticipated.
Potosi is in rather less request, and fell from \$900 to \$850, at which latter rate it is now offered. 20 feet were sold. A large force is now employed in this mine.

Ophir was moderately dealt in, at about \$500. 16 feet were sold. This company are

about to experiment upon their low grade ores, and expect to make the large quantity on hand pay a good profit.

Chollar has been exceedingly active, and 97 feet changed hands, declining from \$500 to \$470, and closing at \$490 bid, buyer 30. The new deposit of ore found in the southwest drift is thought to indicate the existence of a large chimney of pay mineral. A recent crushing of this ore has yielded over \$80 per ton. Other portions of this mine are im proving, and the drift from the main shaft to

slowly.

Hale & Norcross has been in better favor, advancing from \$100 to \$490. Uncle Sam was sold at \$220, but is now

offered at \$200. Yellow Jacket was sold last evening at \$375. Sides changed hands at \$100 per

and 800 shares were sold declining from \$45 to \$15, and closing at \$163. The decision of the referee in the case of the Gould & Curry Company vs. this Company was against the latter.
Wide West rose from \$18\frac{1}{2}\$ to \$21, and fell to \$18. 325 shares were sold within this

range. This Company is now entirely out of debt and possesses a valuable mill, costing \$130,000, and other property.

Burning Moscow is in less favor, and has declined from \$22\frac{1}{2}\$ to about \$17\frac{1}{2}\$. 250 shares

changed hands. Imperial is in favor, and has risen from \$125 to \$130, seller 30 days. A dividend of \$6 per share will be declared the ensuing

month.

Lady Bryan has been exceedingly active, and 1150 shares were sold within the range of \$4\frac{1}{2}\$ and \$5\frac{1}{2}\$, closing at \$4\frac{3}{2}\$.

Baltic was dealt in at \$15\frac{1}{2}\$ and \$16, Nevada at \$17, (assessment of \$\frac{3}{2}\$ delinquent.)

Michigan was sold at \$12, and Blue Ledge at \$2\frac{3}{2}\$. Shelps has advanced from \$17\frac{3}{2}\$ to \$22\$.

Sheba has advanced from \$174 to \$23

COPPERHEAD RAVINGS.— The Pacific Echo, a Confederate organ published at Napa, says: "Desperate diseases require desperate remedies; and as the disease of Abolitionism. remedies; and as the disease of Adoltalish is sweeping like a pestilence over the land, it requires not merely sedatives, but the knife to the root, the dislodgment of the cancer itself, bodily and wholly. To feed war, is to feed Abolitionism; to feed Abolitionism, is to foster the present Administration; to keep up the present Administration, is to ruin the Union, prostrate the citizen, tie the hands of your posterity, and place a despotism and a despot where once sat liberty and a Washington. Talk about reinstating a union of North and South by war? Nonsense! As well talk about binding them together by constant interior volcanic *eruption." After a Copperhead review of the situation, the Echo Copperhead review of the situation, the Ecno goes on to say: "Under these circumstances how important is it that Democrats should stand to their guns, stand to all their principles, stand to the Constitu-tion and law, stand to each other, and, with one voice and one will, bid defiance to every political enemy, military or civil, epauletted with authority, or clad in the plain garb of a citizen-high or low; the fat and greasy official, stall-fed at the public crib, or the lean and lank picture of emaciation, living on expectancy, the ring-master of the circus, or the great jeke-cracker, who occupies a noted seat at the White House."

ROBBERY OF MAILS .- SALT LAKE, AUgust 25th.—For some time the public have suffered from robbing mails between Platte and Missouri rivers. Yesterday we learned tin (N. T.), whose office had severely suffered, and who passed through here some time since and who passed through here some time sates in search of the missing mails, laid a plan to reach Ameson, the Postmaster at Fort Kearney, and caught him with all the evidence of guilt upon him. For over a year that office has been suspected, probably by every Postmaster on the line, and at this detection there will be great satisfaction.
Judge Carter, the Special Mail Agent of the
Overland route, has rendered good service in
this affair, for which he will have the thanks of the public .- Sac. Union.

A CONGRESSIONAL CANDIDATE RULED OUT .- The primary elections for delegates to the Union County Convention took place in Nevada county Thursday, and judging from the local papers there was an animated contest between those who favored an unpledged ticket and the friends of W. H. Sears, who made the canvass against such a ticket and exclusively for that candidate. A dispatch received from Nevada last evening informs us that the county has gone for unpledged dele-gates and against Sears. This result virtu-ally leaves that candidate for Congressional honors out in the cold, for he cannot expect to receive support from other counties when he fails to carry his own.—Sac. Union.

The New Loan. MR. FESSENDEN'S CIRCULAR.-The following excellent circular, ought to be copied into every loyal paper in the country.

TO THE PEOPLE OF THE UNITED STATES: The circumstances under which this loan is asked for, and your aid invoked, though differing widely from the existing state of differing widely from the existing state of affairs three years ago, are such as afford equal encouragement and security. Time, while proving that the struggle for national unity was to exceed in duration and severity our worst anticipations, has tested the national strength and national resources to an extent alike unexpected and remarkable, exciting equal astonishment at home and abroad. Three years of war have burdened you with a debt which, but three years since, would have seemed beyond our ability to

would have seemed beyond our ability to meet. Yet the accumulated wealth and productive energies of the nation have proved to be so vast, that it has been borne with comparative ease, and a peaceful future would hardly feel its weight, as a price paid for na-tional existence and the preservation of free institutions. It does not deserve a moment's

Thus far the war has been supported and carried on, as it only could have been, by a people resolved at whatever cost of blood and treasure, to transmit to posterity the system of free government bequeathed to them by the great men who framed it. This deliberate and patriotic resolve has developed a power surprising even to themselves. It has shown that, in less than a century, a nation has arisen unsurpassed in vigor and exhaustless in resources, able to conduct through a needed was a pack-train to top off with.

(Drunks are really the scarcest article in Gold Hill, owing, perhaps, to ours being a very moral community.)

(Drunks are really the scarcest article in Gold Hill, owing, perhaps, to ours being a very moral community.) enemy apparently approaching a period of utter exhaustion, but still struggling with a force the greater and more desperate as it sees the near approach of a final and fatal consummation. Such is my deliberate judgment in the present condition of the great contest for civil liberty in which you are now engaged.

Up to the present moment you have readily and cheerfully afforded the means necessary to support your government in this pro-tracted struggle. It is your war. You proclaimed it, and you have sustained it against traitors everywhere—with a patriotic devo-tion unsurpassed in the world's history. The securities offered are such as should command your ready confidence. Much effort has been made to shake the public faith in our National credit both at home and abroad. As yet we have asked no foreign aid. Calm and self-reliant, our own means have thus far proved adequate to our wants. They are yet ample to meet those of the present and future. It still remains for patriotic people to furnish the needful supply. The brave men who are fighting our battles by land and sea must be fed and clothed. Munitions of war of all kinds must be furnished, or the war must end in defeat and disgrace. This is not the time for any lover of his country to inquire as to the state of the money mar-ket, or ask whether he can so invest his surplus capital as to yield him a larger return. No return and no profit can be desirable if followed by national dissolution or national disgrace. Present profit thus acquired is but the precursor of future and speedy destruc-tion. No investment can be so surely pro-fitable as that which tends to insure the National existence. I am encouraged in the belief, that by the recent legislation of Congress our finances may soon be placed upon

sounder and more stable footing.

I am happy to say that the daily results are proving the Internal Revenue act to exceed in efficiency the most sanguine expectations of its authors. In June, 1863, it yielded about four and a half millions, while the cor-responding month of this year has returned about fifteen millions under the same law Under the new law, which went into operathe Treasury has frequently received one million a day. As time and experience en-able the officers employed in collecting the revenue to enforce the strength of the provisions of the new law, I trust a million per day will be found the rule and not the excep-tion. Still much space is undoubtedly left reach the lode in the 5th level is progressing for improvement in the law and in its administration, as a greater amount of necessary information is acquired. The proper sources of revenue and most effective mode of obtaining it is best developed in the execution of existing laws, and I have caused measures to be initiated, which will, it is believed, enable North Potosi has been very actively dealt | Congress so to improve and enlarge the sysafford an ample and secure basis for the National credit. Only on such a basis and in a steady and vigorous restricts. steady and vigorous restraint upon the currency can a remedy be found for existing evils. Such a restraint can only be exercised when the government is furnished with the means to provide for its necessities; but without the aid of the patriotic people the army of the government is powerless for this or any other desirable end. The denomination of the notes proposed to be issued, ranging from \$50 to \$5000, places these securities within the reach of all who are disposed to aid their country. For their redemption the faith and honor and property of the country are solemnly pledged. A successful issue to this contest is now believed to be near at-hand, which will largely enhance their value to the holder, and peace once restored, all burdens can be lightly borne.

He who selfishly withholds his aid in the

hope of turning his available means to greater immediate profit is speculating upon his country's misfortunes, and may find that what seems to be present gain leads to future loss. I appeal, therefore, with confidence to a loyal and patriotic people, and invoke the efforts of all who love their country and desire for it a glorious future, to aid their government in sustaining its credit, and placing

that credit upon a sound foundation.

W. P. FESSENDEN, Sec'y of Treas'y. THE TRUE KING .- Where a person that is poor, that is out of health, that is surrounded by many discouragements, and that is made to suffer in various ways lifts himself above his misfortunes, and cheers his companion and children, and fights want on this side and on that, and bears humiliation, putting it under his feet, without losing faith in God, and saying to all the world, "I can be poor, and yet be a man"-oh, crown him! You pass him by; but you do not know what you are passing by. Kings sometimes walk incognito, and then they do not wear crowns. There are kings in your streets. There are men walking about in your midst that wear crowns in their hearts. which if they were to put on their heads, would shine so bright that you would think that twilight had dawned. There are thousands that understand and obey the injunction of the Apostle, when he says, "Quit you like men, be strong." tell you they are heroes; and angels know

it, if you do not. And angels know what to write down. When you laid the foundation of that big house, they forgot to record that in heaven. And when the walls went up, and the beautiful apartments were finished, and the whole magnificent structure was completed, of the architecture of which you were so proud, as sure as you live, they forgot to put that down. And when you unrolled your rich carpet, and hung your fine pictures, they forget to make a note of that. But when that man went down out of his splendid mansion into a fourth-class house, in an obscure street, shedding, it may be some tears, as a tribute of nature, and gathered his little flock on the first evening around the fire, and made the room bright with love, and faith, and prayer. you may be certain that they put that They remembered that. And down. when that man went on from day to day, and from week to week, there was not one noble heart-beat, there was not one generous purpose of fidelity, there was not one resistance to temptation, there was not thing that made him a man in his trouble,

behold, and that by-and-by will not be sung in glory in heaven.—Beecher. GOLD MARKET TRICKS .- As a sample of the way in which speculators run up the price of gold in New York, the Rochester Democrat is enabled to state, on the authority of a gen-tleman who was in Wall street at the time, that on one of the days when the precious metal was quoted at 270 and over, gentlemen who had \$50,000 in coin to sell were unsucwho had 300,000 m coin to sen were an accessful in obtaining an offer of 200 for it.

The quotations were controlled by political schemers who would transfer \$10 to \$50 in coin at a time backward and forward, settling the price between them, and then cause the rate to be telegraphed over the country as the true value of gold as compared with currency.
